PERSONAL DETAILS

Nationality: Pakistani · **Iqama Status:** Transferable · **Availability:** Immediate
Languages: English (Professional) · Urdu (Native) · Arabic (Basic)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript, Node.js, and PostgreSQL. Currently based in Riyadh with direct, in-Kingdom experience delivering production software for Saudi-based clients. Skilled in modern AI-assisted development - building agentic AI workflows in TypeScript, integrating large language models (LLMs) through the Model Context Protocol (MCP), and applying prompt engineering to ship features faster without compromising code quality. Committed to clean, maintainable code, seamless user experiences, and the digital-transformation goals of Saudi Vision 2030.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, React Bootstrap

Backend: Node.js, Nest.js, Express, REST API design & integration

Databases: PostgreSQL, MongoDB

AI & Agentic Development: Agentic AI workflows (TypeScript), LLM integration, Model Context Protocol (MCP), Prompt Engineering, Generative AI, Retrieval-Augmented Generation (RAG) fundamentals, AI-assisted development (Claude Code, Cursor, GitHub Copilot)

Tools & Practices: Git, GitHub, GitLab, VS Code, Postman, Responsive Design, Internationalization (i18n / RTL), SEO, Cross-browser compatibility, Agile collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer - GST (Global Standard Technology)

Jul 2026 – Present

Riyadh, Saudi Arabia

- Developed and maintained full-stack web applications using React.js, Next.js, Node.js, TypeScript, and SQL.
- Built responsive and user-friendly interfaces while integrating REST APIs and backend services.
- Designed and implemented backend APIs, database operations, authentication, and business logic.
- Worked on end-to-end features across frontend, backend, and database layers.
- Debugged issues, optimized application performance, and improved overall system reliability.
- Collaborated with the team to develop and deliver scalable, production-ready solutions.

Software Developer - Code Frenetics

Aug 2024 – Jun 2026

Rawalpindi, Pakistan

- Collaborated on the development of core company products, including a CMS and multiple Next.js applications, delivering new features and optimizing existing functionality with React.js and Tailwind CSS.
- Built and integrated backend data layers using Nest.js and PostgreSQL, designing and consuming REST APIs for reliable data flow.
- Adopted AI-assisted development workflows (Claude Code, Cursor, GitHub Copilot) and prompt-engineering techniques to accelerate delivery while maintaining code quality and consistency.
- Ensured performance and design consistency across platforms for live client-facing projects.

Frontend Developer - Nartech Solutions

Apr 2023 – May 2024

Riyadh, Saudi Arabia

- Delivered responsive, user-facing interfaces for Saudi-based clients, building a library of reusable React.js components with Tailwind CSS and Material UI aligned to a consistent design system.
- Implemented key UI features that measurably improved product usability and adoption for clients operating

within the Kingdom.

- Partnered with cross-functional teams across design, backend, and QA to ship quality frontend solutions on schedule in a fast-paced KSA delivery environment.
- Gained first-hand understanding of Saudi market expectations, Arabic / RTL-ready UI considerations, and local business practices - supporting smooth, localized product experiences.

Web Development Intern - BingTechs Solutions

Nov 2022 – Feb 2023

Pakistan

- Built interactive web interfaces using HTML, CSS, and JavaScript under senior developer mentorship.
- Learned and applied best practices for clean, maintainable frontend code.

KEY PROJECTS

Trust Corners - Full Stack Developer

KSA

Next.js · TypeScript · Nest.js · PostgreSQL

- Built a full-stack platform for a Saudi client featuring a public website and a separate role-based admin dashboard for administrators and end users.
- Developed the responsive frontend in Next.js / TypeScript and collaborated on backend integration with Nest.js and PostgreSQL.

RS Flavour - Full Stack Developer

France

Next.js · React.js · PostgreSQL · Payment Gateway Integration

- Built a responsive e-commerce platform with an integrated payment gateway and secure APIs for order and transaction management, optimizing a seamless checkout flow.

Innovazy Suite - Frontend Developer

KSA

React.js · Tailwind CSS · SEO

- Built dynamic, responsive interfaces and applied on-page SEO best practices (optimized metadata and accessibility) to improve search visibility and cross-browser performance.

KNK Associates - Full Stack Developer (MERN)

Pakistan

Next.js · Express · MongoDB · TypeScript

- Developed an admin panel and public website to manage sales, purchases, and Bill of Quantities (BoQ), with a Next.js / TypeScript frontend backed by an Express and MongoDB API.

Innovazy Website - Frontend Developer

Pakistan

React.js · Tailwind CSS · SEO

- Built dynamic, responsive interfaces and applied on-page SEO best practices (optimized metadata and accessibility) to improve search visibility and cross-browser performance.

EDUCATION

Bachelor of Software Engineering

2019 – 2023

Islamia College University, Peshawar, Pakistan

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Complete Full-Stack Web Development Bootcamp - Udemy (Dr. Angela Yu)
- Frontend Development Specialization - Coursera
- Volunteer Web Developer - Microsoft Student Society (ICUP): organized sessions on web development and Microsoft technologies.
